DESIGNER PROFILE

Worth Interior Design Ltd., established in 2000, is a full-service firm with a focus on residential design. Principal Lisa Worth (ARIDO, NCIDQ), and Assistant Sandee Tatham consistently deliver innovative, intelligent design solutions. A collaborative process with clients, every step of the way, is applied to all projects, big or small. In 2006 Worth expanded her business and opened The Drapery Room, a shop offering both ready-made and custom drapes.

EAST WING RESTROOM & HALL

"In keeping with the integrity of the estate, we paired reflective surfaces, like an antique mirror and glass tile, with an ebony stained floor, to give a distinct sense of luxury that the chic woman, our design muse, craves. The space is designed to reflect the contradictions that come with the modern woman. She slowly reveals herself through an eclectic palette, the juxtaposition of elegant curves and spare lines, and fabrics with various textures like velvet and silk."

FACT The JLT donated over \$55,000 towards the publishing of *Toronto with Ease*, a guidebook for the physically challenged.
